

Summer Internship-Only Subject Enrollment and Tuition Charge Policy

In order to address enrollment and employment authorization compliance for MIT international students pursuing summer internships, the International Students Office and the Registrar's Office have been working collaboratively with other Institute stakeholders to create an "Internship Subject Only" Summer tuition category to ease the financial impact of summer internship subject enrollment. This tuition category has been approved by the administration and will go into effect beginning in the Summer 2018 term.

New Policies

(1) The establishment of an "Internship Subject Only" tuition fee charge for Summer terms to make pursuit of these internship/experiential learning subjects more affordable to students.

- Tuition Cost for Summer term, for a student only enrolled in an internship subject, will be equal to the designated "Per Unit Charge" for Summer enrollment (<http://web.mit.edu/registrar/reg/costs/index.html>)
- Based on current year figures the charges would be as follows (please bear in mind that tuition may increase each academic year)

Internship Subject Units	Tuition Charge – Summer 2021
1	\$600
2	\$1,200
3	\$1,800
4-12 units	\$2,400 (maximum charge)

- If a student is enrolled in ANY subject other than the internship subject in the Summer term, the student will no longer be eligible for the internship only tuition assessment and will be charged the appropriate tuition for the term based on their enrollment.

(2) For students enrolling only in an internship subject, where they are pursuing a non-paid internship or experience, a request for a Waiver of tuition fee charges for that subject can be made to the Office of Undergraduate Education (undergraduate students) or to the Office of Graduate Education (graduate students).
